The game completes the transformation of the image by collecting equipment in the level, allowing the character to step by step from a sloppy shape to a beautiful beauty, plus a variety of The matching of costumes makes players want to stop. There is absolutely no problem with this game I just figured that I could comment on something. At the starting of the game, the girls are obviously laughing at the girl because she looks "nasty" and so on. My problem is that she changes herself for them. Gets a whole makeover because of the girls laughing at her for the way she looks in the beginning. I noticed that a few rounds I played this game. Game Rating: I love this game! It doesn't have that much ads compared to other games. I play this when I'm bored and have nothing to do. It helps me defeat my boredom and makes me try going outside to feel the fresh air. Graphics: The graphics are SO good!! It's not laggy (most of the time), and I can play without interruptions for about 2 rounds of playing, so about 2 minutes, which is enough for me. Conclusion: I absolutely LOVE this game!

The graphics, and gameplay itself! But I recommend changing the clothes on each level to something different so there's something I can look up to going forward into the game. And the skins not being always purchased by ads. Thank you. Sincerely, a person who downloaded your app. Latest Version Makeover Run MOD APK Download Free Unlimited Money Hack For Android & iOS - APK Download Hunt.
